	The MAILING DATE of this communication appears on the cover sheet with the correspondence address Period for Reply						
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.  - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.  - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.  - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 3634

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3-17, and 21-22 are rejected under 35 U.S.C. 102(b) as being anticipated by Thompson. Thompson discloses a door panel (12) comprising a bottom portion(16), a unitary formation (22) extending therefrom (the formation is one when mounted in the final sealing apparatus position), a barrier portion (14) extending therefrom in a spaced apart relationship to the formation (28, 36 as seen in Figure 3), a seal member comprising a head portion (23), a flap portion (49) extending from the head portion and contacting a distal end of the barrier portion (14) and the flap portion (49) extends "beyond" the barrier portion (14), the head portion (23) defining a bootshaped opening having a heel portion (41), a toe portion (51) angularly displaced from the heel portion (41), a curved arch portion tapering from the heel portion (41) to the toe portion (51) (the curved arch portion is element 43 as seen in Figure 3), and the complementary shaped formation (28, 36) mounting the seal member.

It appears that the applicant's arguments are more limiting than the claims. The applicant states that "Thompson does not describe or suggest an inner panel of a dishwasher door having a unitary protrusion upon which a seal is slidably mounted". No where in the claims does the applicant claim a dishwasher in combination with a door panel assembly. The applicant further argues that Thompson fails to disclose a single

Application/Control Number: 09/682,423

Art Unit: 3634

unitary formation. Thompson discloses elements attached together which form a single

Page 3

unitary formation. Integral vs. separate is not a patentable distinct feature unless the

applicant can provide support the in the final apparatus stage that two elements

attached together are patentably distinct from a single element.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time

policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE

MONTHS from the mailing date of this action. In the event a first reply is filed within

TWO MONTHS of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later

than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication should be directed to Jerry Redman

at telephone number 703-308-2120.
